

Use the airquality dataset in R. Run an appropriate command to obtain the mean daily temperature at LaGuardia Airport for each month, separately. Report the average (mean) temperature for the following months.

Month	Mean Temperature at LaGuardia Airport (degrees Fahrenheit)
5 (May)	65.54839
6 (June)	79.10000
7 (July)	83.90323
8 (August)	83.96774
9 (September)	76.90000
