

Consider the Riders dataset in R. (You may need to load `library(mosaicData)`.)

How many total riders were observed on each day of the week? (Hint: the `sum()` function works the same way as `mean()`...)

Day of the Week	Total Number of Riders Observed
Mondays	4698
Tuesdays	4423
Wednesdays	4012
Thursdays	5593
Fridays	5269
Saturdays	4623
Sundays	5168
